About Transgenomic

Transgenomic is headquartered in Omaha, Neb., and has offices in the United States, Europe and Japan. Major manufacturing facilities are located in San Jose, Calif., Omaha, Neb., Cramlington, Northumberland, UK, and Glasgow, Scotland, UK. The company provides innovative research tools to the genomics segment of the life sciences industry. These tools enable researchers to discover and understand variation in the human genetic code, or genome, in order to accelerate and improve drug development and diagnostics.
