About Transgenomic

Transgenomic is headquartered in Omaha, Neb., and has offices in the United States and Europe. Major manufacturing facilities are located in San Jose, Calif., Omaha, Neb., Cramlington, Northumberland, UK, and Glasgow, Scotland, UK. The company provides innovative research tools and related consumable products to the life sciences industry for the synthesis, separation, analysis and purification of nucleic acids and a wide variety of nucleic acid-based specialty chemicals. These tools enable researchers to discover and understand variation in the human genetic code, or genome, in order to accelerate and improve drug development and diagnostics.
